Knockout drawers

Under Grinder Knockout Drawer

Both of these knockout drawers are designed to fit underneath the grinder. The eco model has a sliding drawer, whereas the luxury model has gliding runners for smoother opening and closing of the drawer. Both drawers can be removed to empty coffee grounds.

Under Counter Pull Drawer

The under counter pull drawer is designed to fit neatly into a counter top. The drawer can be removed to empty the coffee dregs. Please note that all under counter drawers must be fixed onto solid timber frames or metal structures and secured using suitable fixtures. Failure of the mounting may occur if mounted to MDF or chipboard.

Under Machine Knockout Drawers

The under machine knockout drawers are designed to fit under the Bambino and Contempo 2 and 3 group coffee machines. Designed so that service cables can run down from the coffee machine through the drawer, and the drawers can be easily withdrawn for emptying used coffee grounds.

Tilting Knockout Drawer

The under counter tilting knockout drawer is designed to fit underneath a counter top and tilts as the handle is pulled forward. The coffee grounds, when knocked out of the filter holder, then drop into the lower drawer which is located directly underneath the tilting drawer. The lower drawer is normally lined with a bin liner, which is taken out and disposed of when full. Both the under counter tilting drawer and the lower drawer must be fixed onto a solid timber frame or metal structure and secured using suitable fixtures. Failure of the mounting may occur if fitted to MDF or chipboard.

Model	Height	Width	Depth
Eco under grinder	65mm	220mm	430mm
Luxury under grinder	115mm	240mm	435mm
Heavenly	62mm	165mm	270mm
2 group under machine	110mm	600mm	485mm
3 group under machine	110mm	800mm	485mm
Under Counter Pull drawer	170mm	365mm	400mm
Cut out required in counter front for mounting the under counter knockout drawer.	140mm	330mm	
Under Counter Tilting drawer	313mm	383mm	260mm
Cut out required in counter front for mounting the tilting under counter knockout drawer.	284mm	354mm	
Lower drawer (for tilting knockout drawer)	306mm	383mm	420mm
Cut out required in counter front for mounting the tilting under counter knockout drawer.	278mm	354mm	

All under counter drawers must be fixed onto a solid timber frame or metal structure and secured using suitable fixtures. Failure of the mounting may occur if mounted to MDF or chipboard.

Grinders

Fracino Grinders

Model B / T

Coffee Grinders

These models provide exceptional value and excellent performance for the requirements of most coffee bar or restaurant venues. Manufactured with a contrasting black polycarbonate and polished stainless steel finish, the easily adjusted grinder burrs and integrated dispenser hopper for the ground coffee ensure simple, consistent operation and accurate portion control. Coffee is dispensed into the filter holder using the flick lever mechanism. Both the Model B and model T allow the user to control the quantity of ground coffee manually.

● Model B

● Model T

Kenia-tron

On Demand Coffee Grinders

The Kenia-tron is the perfect balance between performance and budget. A cost-effective, but powerful grinder, it also features a stylish touchscreen selector pad with blue LEDs for single, double or individual timed 'on demand' grind dose operation. The stylish contrasting black and polished stainless steel finish ensures it suits every location.

● Kenia-tron On Demand

Tranquilo/Tranquilo-tron

Low Volume Speciality Blend Grinder

The Tranquilo range models are ideal for grinding smaller quantities of coffee for speciality or decaffeinated blends. The Tranquilo is fitted with an integrated dispenser, allowing the user to grind a quantity of coffee and dispense controlled portions as required, by operation of the flick lever, into the filter holder. The Tranquilo-tron is programmed to automatically grind the coffee beans on demand directly into the filter holder - with single and double shot quantities or individual selection available. The Tranquilo-tron incorporates a shot timer into the display to ensure that the coffee is correctly ground to your preferred extraction time. Colour finish options are Black or Polished Chrome.

Marfil

Coffee Grinders

The Marfil grinder features an attractive design style, finished in contrasting black polycarbonate and polished stainless steel. The powerful motor is designed to quickly grind coffee, with simple adjustment of the grind settings, to suit a wide range of venues. The integrated dispenser features automatic grind operation to ensure that it remains constantly filled for the busier venue.

● Marfil

K Series

Professional Espresso Coffee Grinders

The K series models are manufactured from die-cast aluminium and finished in silver or polished chrome. The K3 version, ideally suited to lower volume locations - or for speciality coffees - is available as a single shot, on-demand grinder or with the integrated die cast dispenser to suit different user requirements. The more powerful K6 version features an integrated, large capacity dispenser with automatic grind operation - ensuring it will always have consistently ground coffee available to meet the demands of the busiest venues.

EOD Series

Essential On Demand Coffee Grinders

Designed for the speciality cafe and the most accomplished barista. Its features include a micrometric adjustment for precise dosing, multi language touch screen, automatic pre-selection of timed grinding, 2 working modes, refill button and an active password. Its powerful motor allows you to work continuously in situations of high demand whilst maintaining quality of the coffee, thanks to the cold grinding at low revolutions. The EOD range delivers 7 grams in 2.1 seconds and are fitted with durable grinder blades capable of grinding up to 500 kilos of coffee beans.

● E6 On Demand Silver

Luxo / Luxomatic

55dB Silent Grinders

The powerful Luxo and Luxomatic grinders are perfectly suited to the requirements of the busy restaurant and coffee bar. The near silent 55db operation ensures that they never intrude in a quiet location. Equipped with the most sophisticated sound proofing technology, these high quality models, with their modern stylish design are the perfect choice for venues seeking sophistication with easy, consistent operation. The Luxo model is fitted with an integrated dispenser, whilst the Luxomatic features touchscreen, on-demand grind operation. The smart LED keypad allows the user to programme grind time for single or double espresso shot or constant operation. Colour options available are White or Silver

● Luxo White

● Luxomatic Silver

Model F8 / F10

Fresh On Demand Coffee Grinders

The F8 and F10 grinders are designed to grind roasted coffee beans on demand in order to obtain the freshest and best quality coffee possible. Quick and easy to operate, each grinder has an electronic display with a digital readout to enable adjustment of the timed dose for 1 or 2 shots. This is complemented by a numerical display that allows micrometric adjustment of the grinder blades to produce coarse or fine coffee according to preference.

● F8

● F10

Iconic-tron

45dB Silent Grinders

The striking Iconic-tron range take style and silence to new levels of sophistication and superiority. Equipped with the latest technology in noise-suppression and grind temperature. At only 45dB in operation, the powerful digital motor ensures perfect results, whilst the blue LED touch-screen keypad offers simple user interaction and an integral espresso shot timer. Available in Black, White and Red finishes, with bespoke colours available to order.

● Iconic-tron White

Deli

Coffee Grinders

The Deli grinders are suitable for grinding all blends of coffee to be retailed by the bag and are available in three different sizes dependent on usage and volume. All models are suitable for espresso through to filter grind. The low volume dell grinder will grind 4 - 6 kilos per hour with a maximum running time of 20 minutes. The medium volume dell grinder will grind 6 - 10 kilos per hour with a maximum running time of 30 minutes. The high volume dell grinder is made entirely from stainless steel and has a unique vibration mechanism to ensure coffee settles into the bag. It will dispense between 10 and 15 kilos per hour with a maximum running time of 30 minutes.

● Deli Medium Volume

● Deli High Volume

Dispensers

Pre-Ground Coffee and Chocolate

The free standing and wall mounted dispensers have adjustable portion control for pre-ground coffee. Fracino's unique free standing chocolate dispenser is designed to accurately and efficiently measure directly into the cup or glass. The stand is made from highly polished stainless steel and the dispenser has a stylish chrome finish.
